ing concerning the arrangement of the judicial districts. Questions of local advantage and disadvantage entered largely into the discussion, which was participated in by members of the committee and other delegates who represented the sentiment of their several localities. It seemed to be the purpose of the majority of the committee to make the districts as compact in form as possible. A resolution was adopted providing for eight judicial districts.

BISMARCK, Dak., July 18.—The proposition to abolish the office of justice of the peace and establish county courts was the subject of lively discussion at the meeting of the judiciary committee this morning. The opponents gained a victory and the committee will report against the proposition. The committee has agreed on dividing the state into six judicial districts and favors the establishment of an appellate court, the judges of which shall be elected and shall be separate and distinct from the regular district court. Scott, of Barnes, strikes at secret sessions of the senate by proposing that in acting on executive nominations the senate shall sit with open doors. Parsons, of Mooreton, proposes to abolish the labor black list, providing that any person or corporation keeping a black list shall be deemed guilty of conspiracy against the welfare of the state and be punished for felony.

county, was shot and killed by a man who escaped. Gray lived an hour and gave the following account of the affair: A few days ago a package came to the office addressed "Cain." No person living there bearing the name, he returned it to the sender. A man named Burrows called for the package yesterday and being told it had been returned, asked Gray if he had seen its contents. Gray said yes, upon which Burrows shot him and then attempted to shoot Mrs. Gray and her sister. Gray said the package had come to the office partiy open, and he could not help seeing that it contained a white mask. Gray also said Burrows was the same Rube Burrows, the Arkansas train robber, who escaped from officers at Montgomery, Ala. a year or so ago, the time his brother Jim was caught and carried back to Arkansas. It will be remembered that Rube and Jim were in Montgomery and the police officers had them in charge, taking them to police headquarters. At the foot of the steps both dashed for liberty, Rube escaping and shooting a printer named Bray who tried to intercept him. Rube was subsequently surrounded and shot at by the officers, but disappeared in the swamp, since which time he has not been heard of till now-

Thus, you see, a person may be wearing part of a distant relative's body and not know it."

Then the doctor drew from a drawer a brand-new pair of black gloves. "There," he said," is a fine article made from the skin of a child. As the hide of a kid compares with that of a goat, so, of course, does the skin of a child compare with that of an adult, and it is much sought in France for glove purposes.
